A quick look at Samayanallur group

- 📍 Presence in the US, France, and India.
- 👛 Over 15 legal entities, using multiple ERPs like Tally and custom applications.

So, what went wrong?

Despite their scale, financial reporting wasn't keeping up:

- ✗  Data scattered across locations.
- ✗  Consolidation stuck in Excel.
- ✗  No unified Chart of Accounts (COA).

The impact of these challenges?

- 🕒 Audits that dragged on forever.
- ✗ Delayed reports to stakeholders.
- 🚦 Zero real-time visibility into critical financials.

It was time for a better solution.

The big dream- Their ambition

Bringing simplicity to complexity.

- ✓ Access real-time information instantly.
- ✓ Empower teams to analyze, not waste time preparing reports.
- ✓ Streamline processes and simplify consolidation.

(Sounds impossible? FINA HQ made it happen!)

How finahq got it done

 - Consolidated financials across the group.
 - Dimensional insights for deeper analysis.

What Samayanallur group says

"I am impressed with how well FINA HQ works with Tally. As promised with FINA HQ we have transitioned with 18 months of prior information and today MIS reports/ financials are accessible for me and my team at the click of a button. FINA HQ's Tally connectors are impressive in how they bridge the gaps to tally to provide real time reporting in an accessible manner to me and my team"
